HSSE021 - Emergency Response Overview

Learn from the Best in the Business!

Course overview

Duration: 2 days / 16 hours · Foundation level

Why take this course

During this program participants will know how to prepare, write and test emergency plans that are appropriate to the risk that your organization is exposed to, learn how to identify hazards and prepare a comprehensive hazard register and establish an incident command system and ensure your communication lines between your team and external support groups are perfect.

Who it is for and how it helps

This course is ideal for either senior managers or new employees who may, in the course of their normal duties, be called upon to take up a position in their company's emergency response organization. The course would also suit anyone within the company who wishes to understand the principles of emergency response as it applies to industry.

What you will learn

- Define the role and explain the key responsibilities of the Fire/Emergency Response Team Leader.
- State the main priorities of the Fire/Emergency Response Team Leader.
- Explain the purpose of site ER arrangements and procedures.
- Identify the typical elements of emergency response planning.
- Explain the purpose of setting priorities and objectives in response to an incident.
- Explain the importance of monitoring environmental conditions during an incident.
- Explain the importance of monitoring human factors during an incident.
- Explain the reason for dynamic risk assessment during an emergency response.

Programme instructor

Гыльнур Хуснуллина

Гыльнур Хуснуллина – эксперт и консультант в области биологической охраны труда (БиОТ) и промышленной безопасности (ПБ) с более чем 19-летним профессиональным опытом. Она специализируется на разработке и внедрении систем управления охраной труда (СУОТ), проведении внутренних аудитов по OHSAS 18001, а также на оценке и управлении рисками, управлении подрядными компаниями и выявлении опасных и вредных факторов.

Гыльнур проводит курсы по программам OPITO, NEBOSH IGC, IOSH Managing Safely, где ученики учатся определять опасные факторы в промышленности, оценивать риски, расследовать несчастные случаи, обучаться поведенческой безопасности и проведению пожарно-аварийной безопасности (ПАБ), а также системам управления в БиОТ.

В качестве эксперта Гыльнур разрабатывает системы отчетности, информирования, мотивации и поощрения в области БиОТ, проводит семинары по лидерству и культуре безопасности, а также разрабатывает материалы для курсов обучения. Ее опыт и экспертиза делают ее востребованным инструктором в области охраны труда и промышленной безопасности, ликвидации аварий и пожаротушения, системе экологического менеджмента и системе нарядов-допусков. Обучение у Гыльнур помогает компаниям и организациям сократить риски и обеспечить безопасность работников и окружающей среды.

Participant ratings

Programme evaluation based on participant feedback

Overall programme rating — 4.8 / 5

Clarity of learning objectives	**4.5 / 5**
Confidence in applying knowledge and skills	**4.5 / 5**
Achievement of learning objectives	**4.5 / 5**
Relevance of content to job tasks	**4.5 / 5**
Suitability of difficulty for the level of preparation	**4.5 / 5**
Increase in knowledge	**4.5 / 5**
Skills development	**4.5 / 5**
Willingness to recommend the programme to colleagues	**4.5 / 5**
