

Amr Saeed

Instructor

Career synopsis

I am interested in this career because it aligns perfectly with my skills, experiences and aspirations, I'm excited to share my knowledge and make a meaningful impact and positive influence with other people. I have 14 years of experience in maintenance of rotating equipment such as pumps, compressors, reciprocating engines, etc..., including PM, overhauling, troubleshooting, commissioning & startup, spare parts requisition, so i will be glad to transfer this experience to other people.
Also my work nature (14 working days & 14 days off) is appropriate to this career.
Finally I hope that my qualifications meet your requirements.
