HSSE088 - Safety Auditor

This safety auditor training will equip your employees with the skills needed to undertake a comprehensive health and safety audit.

Learn from the Best in the Business!

Course overview

Foundation level

Why take this course

This safety auditor training will equip your employees with the skills needed to undertake a comprehensive health and safety audit. Training a member of your own staff to conduct an audit brings the benefit of familiarity with your workplace culture and an existing knowledge and appreciation of strategies and safety procedures. Auditors will be trained to high standards and will develop a comprehensive understanding of the crucial skills involved.

Who it is for and how it helps

HSE professionals, Operations and Maintenance Personnel, HR Professionals anyone involved in monitoring the HSE management system.

What you will learn
