TECHNICAL EDUCATION ACADEMY

Ekaterina Matveyeva

Instructor

A highly motivated and experienced HSE and waste management professional. Education background -MSc, environment. Excellent personnel management skills, deep knowledge of health, safety and environmental standards and practices applicable in oil and gas industry, extensive experience in liaising with Contractors and Authorities in various countries, in particular development of waste management solutions for various legal environments.

Looking for a highly experienced and motivated HSE and waste management professional? Look no further than Ekaterina! With an MSc in Environment and extensive experience in the oil and gas industry, Ekaterina has the skills and knowledge necessary to excel in any waste management or HSE-related role.

In her most recent role as Project HSE Manager at Gydan Energy in Saint Petersburg, Ekaterina developed and implemented HSE management systems during the exploration phase, conducted incident investigations, and ensured legal compliance. In her previous role as Head of Waste Management at Assala Gabon, she managed a team and oversaw waste facilities of various sizes and designations, managing everything from operational waste to legacy waste and developing a waste management system for a newly acquired oil field.

Ekaterina's experience also includes roles as an HSE consultant for Tactise, an environmental and waste coach for DNO Iraq, an HSE Manager for Visionscape in Nigeria, and Head of Waste Management for Shell Iraq, among others. Throughout her career, she has been responsible for designing and constructing waste facilities, managing industrial and domestic waste, developing competence frameworks for staff, conducting incident investigations, and more.

In each of these roles, Ekaterina has demonstrated an unwavering commitment to safety and environmental standards and practices. She has liaised with contractors and authorities in various countries, developed waste management solutions for various legal environments, and managed budgets of up to $6 million per year.

If you're looking for a waste management or HSE professional with exceptional personnel management skills, deep knowledge of health, safety, and environmental standards, and extensive experience in liaising with contractors and authorities in various countries, look no further than Ekaterina. Contact her today to learn more about her qualifications and experience.
