Soliman Gharieb

Instructor

Career synopsis

As a Python developer with a background in geophysics, I offer a unique blend of technical expertise and domain knowledge. Leveraging my solid foundation in geophysics, I bring a deep understanding of earth sciences to my development work. With extensive experience in data analysis, visualization, and management, I am adept at utilizing Python to extract insights from complex datasets. Whether it's automating geophysical data processing tasks or developing machine learning models for geological analysis, I thrive in bridging the gap between science and technology. My passion for coding and problem-solving, combined with my geophysical insights, enables me to deliver innovative solutions that drive value and advance understanding in both fields.

Professional experience

August 2020-Until now - Python Developer - Egypt Upstream Gateway (EUG), Egypt

- Personnel training

Education and qualifications

Type	Name
2014 - 2018, Bachelor	Al-Azhar University, Geophysics
