TECHNICAL EDUCATION ACADEMY

Yasser Halawa

Instructor

A highly experienced Senior Planning Engineer and Project Controls Specialist with over a decade of practical expertise in engineering project management, scheduling, cost control, delay analysis, and team leadership.
Holds a Master's degree in Engineering project management and a Bachelor's in Civil Engineering, with additional certifications including PMP®, CAPM®, Primavera P6 Advanced, and Quantity Surveying.
Worked on a wide range of mega infrastructure and energy projects across Jordan, managing complex scopes in both civil and MEP works, with contract values up to 2 billion USD. Held senior roles in multinational engineering and project management firms (including a French engineering consultancy and a Saudi investment group), contributing across all project phases from tendering and scheduling to monitoring, reporting, and close-out.
Core areas of expertise include:
Development of detailed, time-phased schedules using Primavera P6 and MS Project
Preparation of executive reports, S-curves, cash flows, histograms, and progress dashboards
Conducting earned value analysis, delay analysis, and submission of EOT claims
Deep familiarity with FIDIC contracts and public infrastructure standards
Leading cross-disciplinary project teams and training junior engineers
Managing planning and QA/QC tasks across civil, electrical, and infrastructure sectors.
In parallel to the engineering work, served since 2014 as a part-time instructor of Primavera P6 and project management topics, delivering both foundational and advanced training to engineering professionals. The teaching is informed by real-world experience on-site and in consultancy roles, making the instruction practical and solution-oriented.
