

**Fayez Hendam**

**Instructor**

My strengths are, disciplined, prepared, friendly with new technology, friendly with students, a good environment creator and motivator.

There are important things to maintain and put in practice along with teaching methodology

grant students proper valuation , because it gives student the responsibility enough to be part in your classes, when student realize that they have to be punctual, disciplined, organized, respecters, they are part of the system, they bring their homework, doing they research without copy and paste, they are motivated and trying to get the best performance from their part.

I have Some qualities of a good teacher include skills in communication, listening, collaboration, adaptability, empathy and patience. , I have professional and practical expertise to explain different subject practically , specially on job training , expertise that I gained from design engineering ,commissioning , start up
